SPOKANE VALLEY CITY COUNCIL TUESDAY, JULY 7, 2026 | MEETING RECAP

This week's Spokane Valley City Council meeting began with an invocation, the pledge of allegiance and approval of the following meeting agenda.

SPECIAL PRESENTATIONS

- Spokane Valley Fire Department Chief Frank Soto Jr spoke about ambulance transportation costs.
- City Manager John Hohman shared the celebratory news that the City had been awarded a $20.8 million USDOT BUILD grant to fund the Sullivan Road/Trent Avenue Interchange project. More information is available in the city's news release at www.SpokaneValleyWA.gov.

PROCLAMATION

Mayor Padden presented a proclamation for Parks and Recreation Month to City of Spokane Valley Parks and Recreation staff.

MAYOR'S STATEMENT

Mayor Padden provided a brief reminder of parliamentary procedure per Robert's Rules of Order.

General Public Comments

Each week, community members have an opportunity to address Councilmembers for up to three minutes during the General Public Comment period, either at the beginning or end of each meeting, either in person or via Zoom.

ACTION ITEMS

#1 – Washington Recreation and Conservation Office (RCO) Planning Grant for Edgecliff Park

The City Council received an administrative report on this topic at the June 23, 2026, meeting. This is a grant opportunity from the Washington State Recreation and Conservation Office (RCO). Edgecliff Park identified in the draft Parks and Recreation Master Plan is in need of critical ADA improvements and is recommended as a high priority for developing a new park master plan with community outreach.

Edgecliff Park is well-utilized by the community and serves as one of the sites for the popular summer park program, as well as accommodating numerous park shelter reservations and community gatherings each year. The City has maintained Edgecliff well beyond its anticipated lifespan, and staff and the Council consistently receive input from the neighborhood and residents around the park about the need for updated playground equipment, improved restrooms, more parking, etc. Staff recommends applying for a site-specific Planning for Recreation Access (PRA) planning grant to request funding for the development of a Renovation Master Plan for Edgecliff Park. The proposed planning project would involve neighborhood and community outreach to inform and generate a 30% design and renovation cost estimate. This planning and design effort would position the City to seek development funding in the future.

A motion to authorize staff to apply for the RCO PRA grant to develop a Renovation Master Plan for Edgecliff Park with a letter of support from Council passed unanimously.

NON-ACTION ITEMS

The order in which the following agenda items were presented was modified to accommodate presenters' schedules.

#3 – Eastern Washington University Economic Trends Report

Dr. Patrick Jones and Dr. Kelley Cullen of Eastern Washington University's Public Policy and Economic Analysis Department presented the second of four quarterly reports, which address detailed economic analyses and trends specific to the City of Spokane Valley.

4 – Spokane County Hazard Mitigation Plan (HMP) and Community Wildfire Protection Plan (CWPP)

On Sept. 9, 2025, the Council received information about the HMP development process and next steps. The HMP is designed to reduce or eliminate the potential for loss of life and/or property damage from natural or human-caused hazards. The plan identified the risks and vulnerabilities presented across Spokane County and includes strategies and actions that can decrease the impact of hazards before they occur. Spokane Valley is one of 16 agencies within the County's larger plan and Council provided direction in 2024 to participate in the current update that happens about every five years. Several city staff members contributed to development of the plan update.

The Council reached consensus for this item to return at a future meeting with a motion consideration to adopt the HMP and CWPP. The resolution formally adopts the Plan and allows the City to remain eligible for state and federal funding.

#2 – 2027 State Legislative Agenda Discussion

The city's state lobbyist provided a 2027 legislative session preview and presented the initial draft of the 2027 State Legislative Agenda. Proposed funding requests include:

Flora Park Riverview Trail and Wildfire Risk Reduction: $600,000 to construct the trail and complete wildfire risk reduction work

- Spokane Regional Transportation Management Center (TMC); Request that the Legislature permanently and fully fund the TMC
- Barker Road/I-90 Interchange (Mission to Appleway): $2.9 million to complete the design phase
- Sullivan/Trent Interchange: $7.5 million allocated to the FMSIB program to partially offset non-federal match dollars required
- And fully fund grant programs such as Safe Routes to School Program, Pedestrian and Bicycle Program and FMSIB program.

Council also reviewed potential policy statements under the categories of Public Safety and Behavioral Health, Housing Affordability, Local Decision-Making Authority and Fiscal Management. An updated draft agenda will be brought back before the Council next month.

I hope everyone had a safe and fun 4th of July Holiday. Summer is in full swing now with lots of great family activities planned I am sure. Something to watch for, you salmon anglers out there, are the numbers of summer runs passing over Bonneville Dam. They are very encouraging!

I recently traveled to Hayden, Idaho to check on the progress of the rigging of the new Thunder Jet Luxor. The folks at Mark's Marine wanted me to come over and check on the placement of a few items that are going on the boat, like the placement of the 12 inch Garmin at the helm. They also wanted to show me how they had mounted the transducer mount for the Garmin Active Target 360 unit. Instead of the typical gunnel placement, they mounted the bracket on the offshore platform. This assures the best performance of the unit as it clears the bottom of the hull. This placement works with this model of the Thunder Jet Luxor as it is built with a transom door. There is easy access to the mounting bracket to tilt it for travel or remove it from the boat, with the flip of a couple of switches. Since the Garmin Active Target 360 is operated with a remote, there is no need to reach the unit to change the direction that it is reading. This is just one of the thoughtful details that Mark's Marine puts into the rigging a boat in their shop.

When I was in Hayden, Idaho visiting the folks at Mark's Marine, I planned to be there a couple of days. John Calder, sales manager, knew I would be around, so he called Tony Johnson, who delivers boats for Mark's Marine and is an active angler. Tony said he would be happy to take me fishing the next morning and he and his fishing buddy Joe Cimino picked me up at the dealership. He thought the best fishing in the area at that time would be for kokanee on Lake Coeur d'Alene, and we put his Thunder Jet in the water at the Sun Up Bay boat ramp, at the south end of the big lake. We ran out to the bay where a friend had found fish earlier and put two rigs out on downriggers and one out the back on a snap weight. We sorted through blade and spinner colors and found that pink hoochies worked the best. We headed for the dock at about noon with eleven kokanee in the live well, and we lost at least that many. Most of the fish were in the 16 to 18 inch class. What a morning! This week's photo is of a couple of kokanee that we caught.

I want to thank all of you that have subscribed to the FishingMagician.com Facebook page. It may not seem like much, but it really helps keep me on the road and afloat to do the reports that I do. You will soon be seeing information about fishing opportunities in north Idaho, in addition to the areas that I have been covering for years. All of this costs. The time and travel, fuel and licenses, etc. I also wanted to let you know that I have recently produced a series of videos that include reviews of some of my favorite products. These will be available only to subscribers to the FishingMagician.com Facebook page. Things that I personally use when I am fishing for the different species available to us in this region. There are some tips and tricks that I share with subscribers as well. If you like what I do and want to learn more about what I use to catch fish and the products that I personally prefer, just click on the Subscriber button on my page. Thanks in advance!

I recently posted a success story about the sockeye returns to the Skagit River and the Baker River. It is really great to hear about the rebound of this run. With the closure of the Columbia River to sockeye fishing this year, you can bet that anglers will be flocking to Baker Lake. I have considered going over there as it is a very scenic place to fish and the sockeye are reported to be even larger than the ones that we catch at Lake Wenatchee. However, the prospect of trying to even get out on the water and then the crowd on the lake isn't something I would not want to experience. While some fisheries are on the rebound the Columbia River sockeye run is tanking. Recently, less than 70,000 sockeye had passed over Bonneville Dam. I think there is very little hope that this run will approach the forecast of 274,000. The sockeye forecast for the 2026 season has been downgraded to 87,200. Even the hope of a season on Lake Wenatchee is getting doubtful, although it is a separate run. There are other fishing opportunities that I have missed out on due to the time I spent on Lake Wenatchee the past few years. This would be the year to take advantage of them.

My neighbor, Heidi Swoboda, is a professional photographer and has hosted meetings for the Professional Photographers of Washington at her home here in Leavenworth. Last weekend was just such an occasion and one of the activities that Heidi offered was to go to Fish Lake to get some shots of the ospreys and bald eagles. I was invited to go along and pilot one of the three pontoon boats that she had reserved for the morning at the Cove Resort. When we arrived, there were white caps on the main lake, and it was decided it would be best to stay in the cove at the resort where the water was calm and it was a lot warmer as we were out of the chilly wind. We were able to get some shots of blue herons, ospreys and eagles right in this bay. The wind settled down a bit, and we were entertained by more ospreys and eagles. I didn't really get a chance to attract the birds near the boat by tossing small perch out on the water. Still, the chatter of camera shutters was heard throughout the morning, and everyone enjoyed the outing.

OPERATION DOG TAG

OperationDogTag.org

I met Joe Scheffer at "Operation Dog Tag", when I was at a very low point in my life... After coming home I began to struggle and fell deeper and deeper into what seemed like a black hole that had no exit. My marriage was in turmoil and I just couldn't get myself together, until Raider, my dog who was given to me by "Operation Dog Tag." This dog is so much more than a companion. He's like a glimmer of hope in a black hole of depression. This incredible pup has truly saved me, and I am blessed to have him!

TIMBER MANAGEMENT PLAN

If you own at least 5 acres of forested land in Washington State, your property may be eligible to enroll in the Current Use Program, which could significantly reduce your annual property tax bill. The program is intended to provide a tax break for those who grow trees for harvest, much like the tax incentive offered to those who produce agricultural products. The portion of your property (approximately 1 acre) on which your home sits would be taxed at the "highest and best use" rate, while the balance of your property, provided it meets certain criteria, could be taxed at a much lower rate.

If you are purchasing forested property that is already enrolled in this program, you can apply to continue the classification as long as you submit an application and provide a timber management plan before closing. Some counties allow new landowners as many as 60 days after closing to submit an acceptable management plan. Such plans are usually prepared by an accredited forester at a cost ranging from approximately $600 to $1,500. The plan includes descriptions of the current timber stand, maps of forested areas and wetlands, identification of soil types, and a plan for future forest stewardship. In most cases, it is beneficial for the owner to keep the property enrolled in the program, although there are situations where removing it may be advantageous.

Since each plan is prepared specifically for the individual owner, the cost of creating a new timber management plan is usually borne by the purchaser, even though doing so saves the seller from paying compensating taxes at closing. Each time a property is sold, it is automatically removed from this tax classification unless the new buyer signs a continuance agreement and meets the program requirements. Although there appears to be very little monitoring or enforcement of a timber management plan, the county may request proof of compliance or remove the property from the program and levy compensating taxes if the landowner fails to meet the requirements.

To qualify, the property must contain at least 150 viable trees that are at least 4 feet tall and consist of species that are marketable for lumber. The owner's intent must be to eventually harvest the timber, much like raising an agricultural crop. Each county maintains a list of accredited foresters who are qualified to prepare these plans.

My Loving House
My loving house is special to me. My parents, brother, and cat live with me. Next, we get lots of wildlife visitors because we live on a hill. My family loves playing games everywhere in the house. Under our deck there is a green hammock I like to lay in. This is why my house is special to me.

CLANTON IS S-LINE DEMO WINNER

APOLLO DEFENDS GOLD CUP WITH SHANE REGATTA OVERCOMES CHALLENGING DEBRIS-DELAY WEEKEND

H1 Media & NW Motorsports Report

Madison, Indiana (July 5, 2026) — The engraver producing the plate that goes on the Gold Cup will not have much to change other than the name of the driver.

After the Miss Apollo won the prestigious trophy in 2025 in Tri Cities with Dave Villwock at the controls, this time it was Jimmy Shane who drove to victory on another river course.

Patience paid off on Sunday at the Madison Regatta as determination from organizers, city officials, volunteers, race teams, and fans ensured the 2026 APBA Gold Cup would crown a deserving champion.

Following an extended delay while crews worked tirelessly to clear debris from the Ohio River upstream of the bridge, the Madison Regatta organizing committee, alongside the City of Madison, made the decision to keep the race course open longer than originally scheduled.

Their efforts allowed two additional qualifying heats to be completed, giving every team the opportunity to race the mandatory three qualifying heats required to determine the five-boat Gold Cup Final field.

When the final went green, Shane delivered a flawless performance aboard the U-27 Miss Apollo to capture the 116th APBA Gold Cup in his return to H1 Unlimited competition after a four-year absence.

The victory marks the sixth Gold Cup title of Shane's remarkable career, further cementing his place among the greatest drivers in the history of the sport.

Corey Peabody capped off an impressive weekend with a strong runner-up finish, while J. Michael Kelly completed the podium in third. Andrew Tate crossed the finish line in second place but received a bearing out penalty, moving him to fifth in the official results. The U-6 Royer Miss Madison finished sixth as the trailer boat.

H1 Unlimited now turns its attention to the next stop on the 2026 championship tour in Tri-Cities, Washington, where the season continues in just a few weeks.

Fans can follow H1 Unlimited throughout the weekend on social media and watch live coverage online at youtube.com/h1unlimited.

Official Final Results
